Cost of Repair: \$1,500.00

Warranty: 90 Days

Estimated Turnaround Time: 5-7 Business Days

Terms and Conditions of This Quote for Transducer Repair

-Estimated turnaround time begins with receipt of this signed quote for repair. Due to circumstances beyond our control, actual repair turnaround time will vary. This is only an estimate, and in no way represents a contractual obligation or guarantee of delivery. If the repair takes longer than estimated, or if during the course of repair, SIG finds the probe to be not repairable, Sentinel will be under no legal obligation to provide any refund, compensation, or other recourse. Your verbal (if previously authorized) approval or signature below authorizing this repair confirms your complete agreement with and full acceptance of this disclaimer.

-If during the repair, it is discovered that any unanticipated additional major cost component must be replaced, a revised quote at an adjusted price may be submitted for customer approval. At this time, the customer will be given the option to accept or reject repair.

-All repairs carry a 90-day warranty unless the returned transducer shows signs of customer damage (including cable connector immersion in disinfectant fluid solution), or unless otherwise stipulated. If probe repair is authorized and SIG finds during repair additional or uncovers internalized damage, SIG may (with notification) be forced to return probe in a partially disassembled state.

-All shipping costs are the responsibility of the customer.

-Fluid infiltration of any sort or damage resulting from any fluid infiltration is excluded from warranty coverage due to BK's policy of excluding this as customer damage. SIG guarantees all probes that use BK model UA-1404 leakage test kit.
